Pragati Trans Logistics

We deliver excellent logistics solutions that meet all levels of complexity, matching service profiles attuned to both market and industry needs, while constantly tweaking the solutions to provide you with absolute value as business and operations dynamics evolve.

Our services are highly admired in the market for their feasibility, standardization, flexibility, reliability, and cost-effectiveness. All our services are handled in accordance with the different customer's demands.

Pragati Trans Logistics is a logistics solution Provider Company that was founded in the year 2018 with the principle of providing personalized services to its customers. We have a workforce of skilful persons who are trained in their respective fields. We are investing in its extensive infrastructure, strong foundation, and skilled manpower.

The company progressed from being a "One Man, One Truck, One Office" set up to becoming India's leading Logistics & Supply Chain Solutions provider. We understand the comfort of our clients and so our aim is to settle our clients as early as possible. We truly understand the requirements of the clients and provide flexible and reliable plans for relocation.

Now we have offices in all major cities/locations in India.

01 Vision

"To acquire the "most preferable logistics assistance provider." Pragati Trans Logistics should be a customer-oriented, multi-technology, multi-specialist transport system in India, with a verified commitment to excellence in every aspect of activity and pursuit of value-based policies to satisfy aspirations of society, customers, vendors, employees, shareholders, and the transport industry.

02 Mission

"To present beyond customer outlook by catering most trustworthy and streamlined logistics solutions". We plan to be the customer's preferred multimodal times certain express delivery service provider in India by adopting a quality culture through modernization and automation. Our special stress is on safety, honesty, reliability, and timely delivery as a means to customer satisfaction.
